About 150 to 175 villagers mostly children and females have participated in nukkad natak activity in front of the House of Gram Pradhan. The theme of nukkad natak covered all aspects of water, i.e. safe handling of potable water, deep bore Hand pump (HP), importance of Red and Blue mark on HP, water pollution factors and safety measures, with correlation with health & hygiene's. During questionnaire session, 3-4 ladies were very active; they drew attention of team members by discussing issues related hand washing, open defecation & sanitary condition of HPs.

We have surveyed nearby 03 HPs in between nukkad natak. The HPs installed in front of the House of Shri Indra Bahadur Singh, Smt Muneera W/o late Mohd. Israil and Shri Vijay Bahadur Singh were in working condition. They informed that the water quality testing were done before one year by Asha, & two year before by Rojgar Sewak. However, Gram Pradhan cannot produce any records or documents in this regard. The Members of NGO distributed the awareness materials to villagers during nukkad natak. The awareness activity - Nukkad Natak was found satisfactory.

Date of Inspection	:	February 03, 2016
District	:	Pratapgarh
Development Block	:	Magraura

Fig: Distribution of IEC material during water testing

About 50 to 60 women & adolescent girls have participated in meeting conducted on Village's Anganwadi Kendra. In Meeting main focus was on safe handling of potable water, usefulness of deep bore Hand pump (HP), importance of Red n Blue mark on HP, water pollution factors and safety measures, with water born diseases & sanitary condition of HPs. The IEC materials were distributed.

The second activity- Water quality testing with FTK, was performed in front of the House of Shri Rambaran Tiwari. About 50-60 villagers were present there. 14 water samples of HPs were carried out by villager itself. The IEC materials were distributed.

In addition, we have surveyed nearby 02 HPs in between Water testing activity. The HPs installed in front of the House of Shri Rambaran Tiwari and Shri Ram Ujagir Pandey were inspected and found in working condition. The family members of above informed that the two active members of the family went to participate in both ongoing activities in village - Water Quality Testing & Anganwadi. The both awareness activities were found satisfactory.
